RELATIONSHIPS, SEX AND HEALTH EDUCATION

Journey in Love

The aims of Relationship, Sex and Health Education (RSHE) at St. Lewis' Catholic Primary School are:

- To provide a framework in which sensitive discussions can take place.
- To help pupils develop feelings of dignity, self-worth, self-respect, confidence and empathy.
- To prepare pupils for puberty and give them an understanding of sexual development and the importance of health and hygiene.
- To create a positive culture around issues of sexuality and relationships.
- To teach pupils the correct vocabulary to describe themselves and their bodies.

Our Mission Statement places these aims and beliefs at the centre of all we hope to achieve. It is with this mission that we share this booklet with our parents and carers. We recognise parents as the first and most important educators of their children and we hope that the information provided here will enable us all to work together in supporting parents in their most important role.

At the heart of our mission as a school, and at the heart of our Relationships and Sex Education, is love.

God is love (1 John 4:9), and through our love for others, we link ourselves with God the Father, through Jesus Christ his Son, and through the Spirit.

The programme for Relationships and Sex Education which we have chosen to share at St Vincent's is called 'A Journey in Love'. This booklet for parents and carers outlines how the programme is organised and what is covered in each year group

How will we organise lessons?

- Before the programme begins, ground rules are set with the children regarding the kind of positive behaviour expected of every child.
- All children and teachers treat each other with respect; all questions and answers are listened to in a sensitive and sensible manner.
- Any child who behaves inappropriately or attempts to embarrass or hurt another member of the group, will be asked to leave.
- Children may be taught in small groups for some elements of the programme.
- All children will cover the same topics.
- Lessons may include; discussions, presentations, questions, written work, homework.

What if a child asks a difficult question?

- There are specific areas that we feel should not be discussed within the context of our school lessons, e.g. contraception, as we feel that our children are not yet emotionally mature to handle these issues.
- These are all topics which are dealt with at secondary school.
- If a child does ask a question outside the scope of our programme, it will be dealt with in a sensitive and caring manner. We would always ask the child concerned to discuss the issue with their parents.

How can I help?

- By talking with your child at home
- By discussing their work after each lesson
- By listening to any concerns
- By reassuring your child that you are there if they need to talk about anything
- By helping with any homework activities

What if I don't feel that my child is ready for this programme of work?

- We ask that if parents feel that their child may not be quite ready for the content within the programme, they should make an appointment with the Head of School to discuss their thoughts on the matter.
